## \*Specialty Activity Notice

The International Symposium on Fireworks Society (ISFS) is the entity which organizes, promotes, executes, and memorializes an International Symposium on Fireworks (ISF) about every 18-24 months. The last ISF, the 16th, was held in Omagari, Japan in April 2017. In response to popular demand for regional symposia, members of the ISFS will conduct its First Regional Symposium on Fireworks (RSF) as a special activity during the NFA Expo.

The papers accepted for this 1<sup>st</sup> RSF will be presented immediately before and after the scheduled Expo seminars, and together with some of the seminars, which are suitably documented, will be published in the Proceedings.

Registration in the 2018 NFA Expo includes attendance at the 1<sup>st</sup> RSF presentations and all registrants will receive a digital copy of the Proceedings.
